

Making
strategy
happen.

WHO WE ARE

TayganPoint Consulting Group is a management consulting firm dedicated to dynamic business transformation. We make strategy happen.

From strategy through execution, we engage as a partner and trusted advisor through all phases of your most mission-critical projects.

About Us

Aligning people, process, culture and technology, TayganPoint delivers high-value solutions that improve performance, delivering measurable and sustainable results to clients.

We cost-effectively fill gaps, broaden capabilities and create efficiency by leveraging deep knowledge and experience in the areas of strategy alignment, program governance, change management and process improvement.

TayganPoint is comprised of alumni from some of the most notable consulting firms in the world blended with deep industry knowledge in Life Science, Financial Services, Healthcare and Energy.

TayganPoint consultants average 20 years of management and consulting experience in a variety of industries and functional areas to directly provide the leadership, fresh thinking, and insight to meet the critical business challenges of today

History & Evolution

TayganPoint was formed in 2009 and has expanded exponentially since its founding. The services and capabilities of the organization have grown to be on par with larger consulting firms, yet feature the value-added approach and the personal attention of a specialist consulting firm. As a result, TayganPoint is known for its senior-level consultants, fresh thinking and high quality project deliverables, which has led to long-term loyalty from both clients and consultants.

TayganPoint's consultants bring a blend of deep industry and functional expertise to every engagement. Taking a collaborative and hands-on approach, clients are able to achieve business benefits sooner than with traditional consulting methods. TayganPoint believes that designing the best solution requires the right combination of tools, methodologies and strategies to match the unique needs of the company and its culture.

CORE SERVICES

Strategy Alignment & Execution

Strategic Planning and Implementation

Performance Management and
Balanced Scorecard

Stakeholder Alignment and Governance

Strategy alignment and execution is fundamental to your business success. Working collaboratively with your team, TayganPoint consultants help define and implement differentiating strategies at corporate and functional levels.
